

SCOPE 28

**Environmental Consequences
of Nuclear War**

Volume I

Physical and Atmospheric Effects

Executive Committee of SCOPE

President: Professor R. O. Slatyer, Department of Environmental Biology, Australian National University, PO Box 475, Canberra ACT 2601, Australia.

Past-President: Professor G. F. White, Institute of Behavioural Science, University of Colorado, Colorado 80309, USA.

Vice-President: Professor G. A. Zavarzin, Institute of Microbiology, USSR Academy of Sciences, Prosojusnaja 71, 11731 Moscow, USSR.

Secretary-General: Professor J. W. M. La Rivière, International Institute for Hydraulic and Environmental Engineering, Oude Delft 95, PO Box 3015, 2601 DA Delft, The Netherlands.

Treasurer: Sir Frederick Warner, FRS, 11 Spring Chase, Brightlingsea, Essex CO7 0JR, UK.

Members

Dr M. A. Ayyad, Botany Department, Faculty of Sciences, University of Alexandria, Moharran Bay, Alexandria, Egypt.

Professor M. J. Kostrowicki, Institute of Geography, Polish Academy of Sciences, Warsaw, Poland.

Professor S. Krisnaswamy, School of Biological Sciences, Madurai Kamaraj University, Madurai 625 021, India.

Professor T. Rosswall, Department of Microbiology, Swedish University of Agricultural Sciences, S-75007 Uppsala, Sweden.

Professor Yasuo Shimazu, Department of Earth Sciences, Faculty of Science, Nagoya University, Furo-cho, Chikusa, Nagoya, Aichi 464, Japan.

Editor-in Chief

Professor R. E. Munn, IIASA, Schlossplatzl, A 23651, Laxenburg, Austria.

Volume II Ecological, Agricultural and Human Effects, 1985, 576pp

Funds to meet SCOPE expenses are provided by contributions from SCOPE National Committees, an annual subvention from ICSU (and through ICSU, from UNESCO), an annual subvention from the French Ministère de l'Environnement et du Cadre de Vie, contracts with UN Bodies, particularly UNEP, and grants from Foundations and industrial enterprises.

International Council of Scientific Unions (ICSU)
Scientific Committee on Problems of the Environment (SCOPE)

SCOPE is one of a number of committees established by the non-governmental group of scientific organizations, the International Council of Scientific Unions (ICSU). The membership of ICSU includes 66 National Academies of Science or equivalent bodies, 20 International Scientific Unions, and 19 other bodies called Scientific Associates. To cover multi-disciplinary activities which include the interests of several unions, ICSU has established 10 Scientific Committees. The number of scientists involved in ICSU-related activities totals several hundreds of thousands. SCOPE, founded in 1969, is a Scientific Committee of ICSU. Currently, representatives of 36 national members and 18 Unions and Scientific Committees participate in the work of SCOPE, which directs particular attention to the needs of developing countries.

The mandate of SCOPE is: to assemble, review and assess the information available on man-made environmental changes and the effects of these changes on man; to assess and evaluate the methodologies of measurement of environmental parameters; to provide an intelligence service on current research; and by the recruitment of the best available scientific information and constructive thinking to establish itself as a corpus of informed advice for the benefit of centers of fundamental research and of organizations and agencies operationally engaged in studies of the environment.

SCOPE is governed by a General Assembly, which meets every three years. Between such meetings its activities are directed by the Executive Committee.

SCOPE 28 was prepared at the request of ICSU by a Steering Committee charged by SCOPE with the responsibility of overseeing the effort and approving preparation of the report.
