SCOPE 1: Global Environmental Monitoring 1971, 68pp (out of print)
SCOPE 2: Man-Made Lakes as Modified Ecosystems, 1972, 76pp
SCOPE 4: Environmental Sciences in Developing Countries, 1974, 72pp
SCOPE 7: Nitrogen, Phosphorus, and Sulphur: Global Cycles, 1975, 192pp (available from Dr Thomas Rosswall, Swedish Natural Science Research Council, Stockholm, Sweden)
SCOPE 8: Risk Assessment of Environmental Hazard, 1978, 132pp
SCOPE 9: Simulation Modelling of Environmental Problems, 1978, 128pp
SCOPE 10: Environmental Issues, 1977, 242pp
SCOPE 11: Shelter Provision in Developing Countries, 1978, 112pp
SCOPE 13: The Global Carbon Cycle, 1979, 491pp
SCOPE 14: Saharan Dust: Mobilization, Transport, Deposition, 1979, 320pp
SCOPE 15: Environmental Risk Assessment, 1980, 176pp
SCOPE 16: Carbon Cycle Modelling, 1981, 404pp
SCOPE 17: Some Perspectives of the Major Biogeochemical Cycles, 1981, 175pp
SCOPE 18: The Role of Fire in Northern Circumpolar Ecosystems, 1983, 344pp
SCOPE 20: Methods for Assessing the Effects of Chemicals on Reproductive Functions, 1983, 568pp
SCOPE 21: The Major Biogeochemical Cycles and Their Interactions, 1983, 554pp

SCOPE 22: Effects of Pollutants at the Ecosystem Level, 1984, 443pp

SCOPE 24: Noise Pollution, 1986

SCOPE 25: Appraisal of Tests to Predict the Environmental Behaviour of Chemicals, 1985, 400pp

SCOPE 28: Environmental Consequences of Nuclear War
Volume I Physical, 1985, 342pp
Volume II Ecological and Agricultural Effects, 1985, 523pp

SCOPE 29: The Greenhouse Effect, Climate Change and Ecosystem, 1986, 574pp

SCOPE 30: Methods for Assessing the Effects of Mixtures of Chemicals, 1987, 928pp

SCOPE 32: Land Transformation in Agriculture, 1987, 580pp

SCOPE 33: Nitrogen Cycling in Coastal Marine Environments, 1988, 488pp

Funds to meet SCOPE expenses are provided by contributions from SCOPE National Committees, an annual subvention from ICSU (and through ICSU, from UNESCO), an annual subvention from the French Ministère de l'Environnement et du Cadre de Vie, contracts with UN Bodies, particularly UNEP, and grants from Foundations and industrial enterprises.
International Council of Scientific Unions (ICSU)
Scientific Committee on Problems of the Environment (SCOPE)

SCOPE is one of a number of committees established by a non-governmental group of scientific organizations, the International Council of Scientific Unions (ICSU). The membership of ICSU includes representatives from 68 National Academies of Science, 18 International Unions and 12 other bodies called Scientific Associates. To cover multidisciplinary activities which include the interests of several unions, ICSU has established 10 scientific committees, of which SCOPE is one. Currently, representatives of 34 member countries and 15 Unions and Scientific Committees participate in the work of SCOPE, which directs particular attention to the needs of developing countries. SCOPE was established in 1969 in response to the environmental concerns emerging at that time; ICSU recognized that many of these concerns required scientific inputs spanning several disciplines and ICSU Unions. SCOPE's first task was to prepare a report on Global Environmental Monitoring (SCOPE 1, 1971) for the UN Stockholm Conference on the Human Environment.

The mandate of SCOPE is to assemble, review, and assess the information available on man-made environmental changes and the effects of these changes on man; to assess and evaluate the methodologies of measurement of environmental parameters; to provide an intelligence service on current research; and by the recruitment of the best available scientific information and constructive thinking to establish itself as a corpus of informed advice for the benefit of centres of fundamental research and of organizations and agencies operationally engaged in studies of the environment.

SCOPE is governed by a General Assembly, which meets every three years. Between such meetings its activities are directed by the Executive Committee.

75016 PARIS
Acknowledgements

We are indebted to Professor Thomas Rosswall, University of Linköping, Sweden, who suggested a SCOPE Symposium on Nitrogen Cycling in Coastal Marine Environments be held at our Department and also organized part of the funding. His encouragement in our preparation of the meeting was most valuable.

Special thanks are due to the participants who contributed with seminars, posters and manuscripts. We also thank our colleagues and students who assisted us with their enthusiasm during the meeting.

Sponsors of the Symposium were the Scientific Committee on Problems of the Environment (SCOPE), Danish Natural Science Research Council, and Swedish Board for Environmental Protection. The financial support is gratefully acknowledged.
